

THE PROJECT

CREATIVE GUITAR

The Online Learning Method is for people of any age and level, from beginners to experts, it involves the use of fingers and the guitar pick. For those who are interested, it is possible to have an immersive Audio experience combining also the Voice and Singing.

During courses work is done in steps on the goals chosen with the student during the first meeting Online or during a free face-to-face meeting in case a decision has been made to follow the course in person in the different locations designated to the courses and seminars.

For those interested in courses focused on the development of Creativity and Intuition, there are many courses/seminars which combine different acoustic techniques with Meditation for a full development of the student's Creative and Intuitive Potential, enabling them to develop their sensitivity, listening skills and energy through the DOT Method that he created.

Courses in person are available on request.
